

SPIRITS

Once commonly referred to as the water of life, distilled spirits are believed to have originated in the Middle Ages, with China, Italy and Arabia all considered among the first to have discovered the process. Alchemy – the desire to turn lead into gold – is what led early scientists to perfect the art of distilling alcohol, first for medicinal purposes and later for recreational use.

While appreciating a dram of precious malt, muse over your recollections of the day, savouring the layered flavours well into the night.

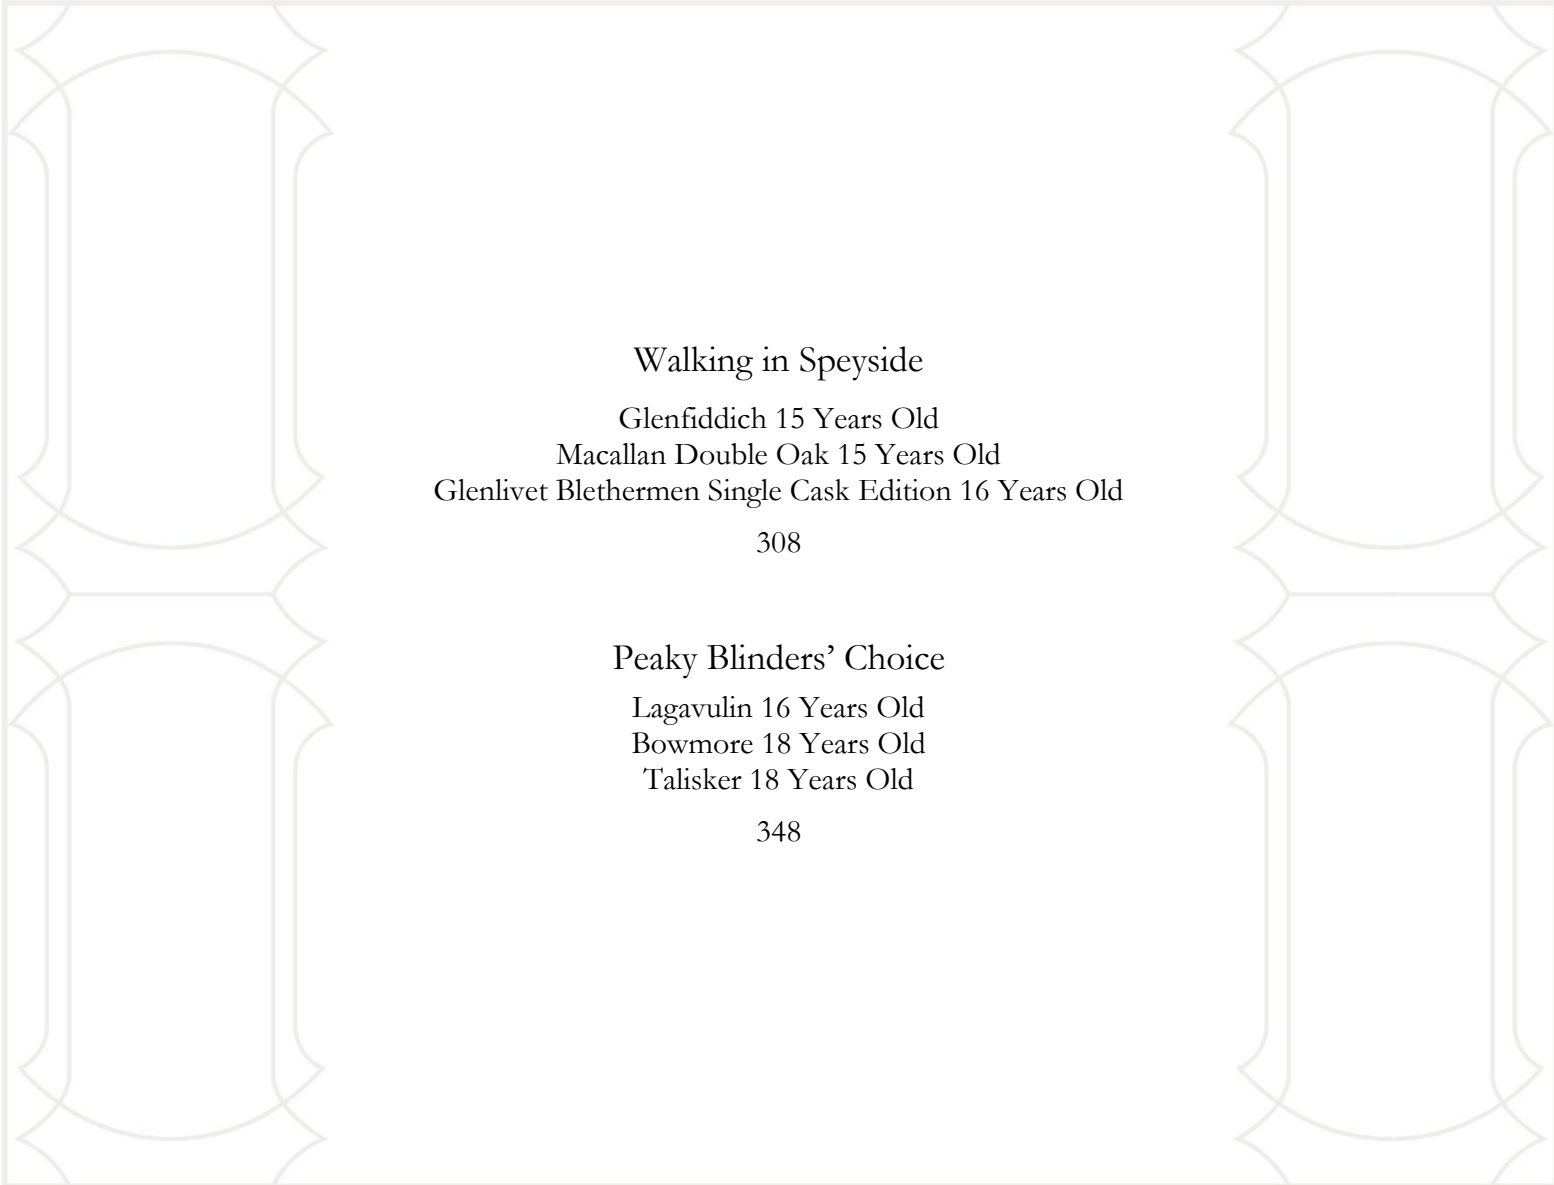

A minimum spend of \$300 per person on food & beverage applies.
